**RE: Stephen Hemmes**

Rev. June 2014

**CAUSE**

In a report dated February 18, 2022, we informed Your Honor that Hemmes violated his release conditions by testing positive for methamphetamine on December 14, 2021 and January 25, 2022. In response, Hemmes's drug testing was increased, and he was returned to substance abuse treatment. At that time, no punitive action was recommended.

Since the report submitted to the court on February 18, 2022, Hemmes tested positive for methamphetamine on March 15, 2022 and marijuana on March 28, 2022. Hemmes also failed to report for drug testing on March 26, 2022. Hemmes positive test for methamphetamine was confirmed by the National contracted laboratory.

On March 29, 2022, Hemmes reported to the probation office and met with the undersigned officer to discuss his ongoing drug use. Hemmes admitted he used marijuana multiple times beginning the weekend of March 26, through the evening of March 28, 2022. However, Hemmes continues to deny methamphetamine use. Hemmes claims his positive test for methamphetamine was caused by his consumption of Nyquil to alleviate cold symptoms. Hemmes was informed that Nyquil will not confirm positive for methamphetamine. Hemmes has a significant history of methamphetamine abuse and proclivity for violence when under the influence of methamphetamine.

Hemmes is scheduled to complete supervised release on June 20, 2022. It is very concerning that Hemmes appears to be spiraling just a few months shy of his completion date. At the onset of supervision, Hemmes was doing very well, with all drug tests negative. However, as detailed in this report, since December 2021 Hemmes has tested positive on multiple occasions and recently missed a drug test. Hemmes just resumed treatment and has been attending all sessions as required, however, his clinician noted he uses the time primarily to complain about his probation officer. Considering his ongoing drug use and impending completion date, the probation office strongly considered initiating revocation proceedings at this time, as it seems it would be a disservice to Hemmes and the community to simply allow him to expire from supervision while he is struggling with maintaining sobriety. To his credit, he is employed and availing himself to treatment. In lieu of revocation proceedings, the probation office recommends Hemmes's conditions be modified to include a 60 day curfew enforced by location monitoring. Hemmes will be restricted to his residence daily between the hours of 7:00 p.m. and 7:00 a.m. In addition, his clinician has been informed of his drug use to address in a therapeutic setting. Hemmes is currently attending weekly groups and a monthly individual session.

Hemmes was warned next positive drug test will trigger mandatory revocation proceedings under 18 U.S.C. § 3583(g)(4). Hemmes agrees with the proposed modification as witnessed by his signature on the attached Waiver of Hearing Form (PROB 49).
